

Curriculum travelling to France 4 weeks online course

Our French Travel Courses are designed for people who are planning a trip to France or are just interested in getting a taste of the language and culture! This is a modern, interactive course that covers all your travelling needs, including emergency situations. The course is video based and a full immersion in French. It runs for 4 weeks and is a great way to get started with French!

Our program is an immersion course; that means that even if we translate some of the sentences or words, students are encouraged to listen to the language idiomatically which is the best way to memorise and learn the target language. Consequently, each audio file is downloadable to your phone or computer to be able to listen to them as many times as you want. Remember, repetitions make perfect!
